of 20g or 80g,  
and even of 140g

## FLEXIBLE

it emulsifies at 1.8 bar,  
with air flow or with no air

## SAFE

innovative system avoids  
release of the blades

## QUIET

it guarantees a high level of silent,  
thanks to the special design of the blades  
and the bowl inserted in the drawer

# Giaz

HotmixPRO Giaz, the latest revolution brought to you by the HotmixPRO range of professional kitchen tools, renovates completely an already existing technique - the reduction to puree of a frozen product- thanks to many innovative and intuitive technological solutions. It can optimize the efficiency of any kitchen, allowing to stock up any kind of frozen preparation and scrape/emulsify it later. It is ideal for instant preparation of ice cream and sorbets, as well as creams and emulsions, and it is a perfect managing and organizing system for all those recipes that are fit to be frozen and stocked in a refrigerated place.

Featuring extreme ease of use, practicality, power, quickness and comfort, HotmixPRO Giaz grants unequaled performances when compared to the competition. The automated software system for production management allows the user to completely concentrate on what matters most: the kitchen management and her creativity. In fact, not only HotmixPRO Giaz allows to optimize the production phase, by preparing everything in advance and minimizing waste; it also offers a complete solution for organization and control, thanks to an innovative software that memorizes what has been stocked and prepared, and how much.

The user will no more need to keep notes on what is in each beaker in the freezer. HotmixPRO Giaz will remind us how much of each preparation is available, its preparation date and its expiry date; finally, it will set itself to the right parameters for that specific recipe, recognizing the content automatically.
